DSZC18

HIGH-EFFICIENCY HEAT PUMP

McClure
AIR CONDITIONING & HEATING

UP TO 18 SEER
9.5 HSPF

Efficiency ratings up to 18 SEER (seasonal Energy efficiency ratio) and 9.5 HSPF (heating seasonal performance factor), mean the McClure DSZC18 Heat Pump can deliver substantial savings on monthly utility bills.

The McClure DSZC18 Heat Pump is compatible with the ComfortNet system of control products. This advanced technology makes it easy to auto configure the system, and deliver optimum performance year round.

Reliable performance

The McClure DSZC18 Heat Pump is designed to deliver dependable comfort even in the most extreme weather conditions. With powerful performance thoughtfully engineered into an efficient design, you can count on the McClure DSZC18 Heat Pump to maintain the perfect indoor environment all year long.

Energy-efficient design

Premium quality components including a high-efficiency coil and refrigeration-grade copper tubing improve the efficiency of the McClure DSZC18. This energy-saving technology, paired with eco-friendly R-410A refrigerant, can add up to significant savings on monthly utility bills when compared to lower-rated systems.

Noise reduction technology

Specially designed sound dampening features like a high density foam compressor cover and wire fan discharge grill deliver quiet performance in any season. So relax, and enjoy a refreshingly peaceful home environment all year long.
