## PACKAGED HEAT PUMP

*McClure*  
AIR CONDITIONING & HEATING

**UP TO 14 SEER /  
8.0 HSPF PERFORMANCE**

The McClure GPH14H Packaged Unit delivers up to 14 SEER (seasonal energy efficiency ratio) and 8.0 HSPF (heating seasonal performance factor) performance, which means that it uses less energy and can cost less to operate than lower-rated models.

### **R-410A refrigerant**

Easier on the environment, and gentler on the components in your system. This chlorine-free refrigerant helps increase the durability and reliability of your McClure GPH14H Packaged Unit.

### **Engineered for durability**

The McClure GPH14H Packaged Unit has been carefully engineered to deliver years of trouble-free service, and by the time each GPH14H Packaged Unit leaves our factory, it's been fully charged, and rigorously tested for performance and durability. So relax, and get cozy with your new GPH14H Packaged Unit. It's going to be there for a while.

### **Compact, quiet design**

With the compact design and sound dampening features in the McClure GPH14H Packaged Unit, a comfortable home may be your only reminder that it's even there. Whether it sits on the roof of your business or on the ground outside your home, the self-contained McClure GPH14H Packaged Unit saves space while delivering dependable heating and cooling — in any weather.

### **Efficient performance**

The innovative combination of a high-performance compressor and a high-efficiency, all-aluminum coil yields a quality packaged unit that's powerful enough to heat and cool your home all year long. Plus the McClure GPH14H Packaged Unit is more efficient than lower-rated packaged units. That means less energy consumption, and more savings on utility bills.
