

GPH16H

PACKAGED HEAT PUMP

McClure
AIR CONDITIONING & HEATING

**UP TO 16 SEER / 8.0 HSPF
PERFORMANCE**

With efficiency ratings up to 16 SEER (seasonal energy efficiency ratio) and 8.0 HSPF (heating seasonal performance factor), this unit can deliver substantial savings on operating costs compared to lower-rated models.

Tested and proven

Quality engineering is only the beginning. Before leaving our factory, every McClure GPH16H Packaged Unit is thoroughly tested for performance and durability. Invest in the McClure GPH16H Packaged Unit and you'll enjoy years of trouble-free comfort.

Quiet efficiency

Whether it sits on the roof of your business or on the ground outside your home, you can count on the self-contained McClure GPH16H Packaged Unit to deliver dependable heating and cooling with a small footprint. Plus, with noise reduction technology like a fully insulated blower compartment, it'll be cozy and quiet at bedtime. Sweet Dreams.

Dependable performance

The unique combination of a high-performance compressor and a high-efficiency, all-aluminum coil yields an efficient design that's powerful enough to heat and cool your home even in extreme weather. Plus the McClure GPH16H Packaged Unit uses less energy than lower-rated models, which can add up to big savings on utility costs.

R-410A refrigerant.

Chlorine-free R-410A refrigerant helps improve the durability and efficiency of your McClure GPH14H Packaged Unit. It's easier on the environment than R-22 coolant, and gentler on the components in your system, too.
